

# Mackay Regional Aquatics Strategy

Mackay Regional Council is preparing a Regional Aquatic Strategy that will reflect the identity, current and future trends, needs and expectations of the Mackay region; and to support future planning and development of aquatic facilities.

A key purpose of the Strategy is to provide direction for the future use, development and management of Council's existing aquatic facilities and to identify any gaps in current aquatic provision.

## How do I get Involved?

Council invites all interested residents and community groups to contribute to the development of this important planning strategy by 'have your say'.

We live in a unique aquatic environment and our swimming pools play a major role in ensuring we maintain a safe and healthy lifestyle. Council knows you have ideas and comments on existing facilities and our community's future aquatic needs!

To ensure the Strategy is comprehensive and realistic, a community engagement program has been developed calling on all members of the Mackay community to get involved and identify your needs and those of your local area.

You are invited to have YOUR say by ...

- Completing an on-line survey at [www.surveymonkey.com/s/mackayaquatics](http://www.surveymonkey.com/s/mackayaquatics)
- Attending a public meeting in your community during late April
- Register your interest in the study by contacting the project team:
  - SMS: 0412 395102
  - Email: [mackayaquatics@strategicleisure.com.au](mailto:mackayaquatics@strategicleisure.com.au)
  - Phone: 1300 734 626 (local call cost)
  - Facebook: (search the email address above)
