

About the Study

Sunshine Coast Regional Council is preparing a Regional Sport & Recreation Strategy.

The purpose of the Strategy is to guide the current and future provision of facilities and services to meet the needs of Sunshine Coast communities over the next 15 years.

The study will focus on activities that require legitimate/ formal venues and services, where Council has a role to play.

Consultants *Strategic Leisure Group* have been engaged to assist in preparing the Regional Sport and Recreation Strategy.

As part of the community engagement process for this project a series of **Community Forums** are planned. The purpose of the Forums is to discuss:

- ~ What people like and dislike about current sport and recreation facilities and services
- ~ Barriers that need to be addressed
- ~ Suggestions to improve facility use or participation
- ~ A 'vision' for sport and recreation for the region

Please note these forums are a combined meeting and will also be addressing Council's planning for a Regional Aquatics Strategy.

Details of Community Forums

12 combined Community Forums for both the Regional Sport and Recreation Strategy and the Regional Aquatics Strategy will be held in late November/ early December. Details are as follows:
